

WASHINGTON DC,

the heart of our country, filled with memorable sites. The perfect place to review our Christian Heritage, as well as to see the many Memorials which give insight into our history and struggle for freedom and human rights, here and around the world. Arrive early for the opportunity to see our Supreme Court judges in action as they announce their decisions in June. Visit the Capitol, the Library of Congress and several of the Smithsonian museums. See the Memorials by day and also illuminated by night. Discover Embassy Row and Cruise down the Potomac to the homestead of our first president, George Washington. Enjoy four insightful days discovering our capitol city. One can never see it all in just one trip. So even if you have been there before, you will make new discoveries with us.

Our trip to this most important city will culminate with an insightful view of Jonah's Challenge, when God told him to "Go to that great city of Nineveh." We will visit Lancaster, PA to see Sight and Sounds new dramatization of *JONAH*. This will certainly be a highlight. But the trip home will be just as memorable as we include a stop by the new memorial for Flight 93 at Shanksville, PA. Join us for this memorable trip.
